

You have a non-fault car accident and recover £2,500 compensation for your "average" whiplash injury, and you settle before court proceedings: -

Example 1

You instruct a certain claims company.

Solicitor recovers costs of:-

£1,300 + VAT = £1,528.00 -

out of which he pays the claims company

£439 + VAT = £516.00

Leaving just £1,012 to fight the case!

YOU pay the claims company a client management fee of

£379 + VAT = £445

YOU lose £445 from your compensation!

The claims company gets a total of **£961** (inc. VAT) for just passing your details to a solicitor.

Example 2

You instruct **Lampkin & Co Solicitors** under **the "Accident 110"** scheme: -

We get £1,528.00 (inc VAT) to fight your case. From this we pay you an extra 10% compensation being £250, leaving us £1,278 to fight your case.

You get £2,500 + £250 = **£2,750.00**

So here it is very clearly

If you instruct "**Accident 110**" you would be **£695** better off as opposed to going via Accident Advice Helpline, a company personally endorsed by Esther Rantzen.

DON'T BELIEVE IT?CALL ME!

Example 3

You call your Legal Expenses Insurer, they sell your case for (say)

£800 + VAT

This leaves the solicitor –

£1,528 less £940 = £588 (inc. VAT)

The Legal Expenses Insurers pocket **£940** from your case for
Nothing.

The Solicitor they appoint only has £588 (inc. VAT) to fight your case.

We at "**Accident 110**" would have –

£1,528

Who will give you the best service ?
